

Pattern template — patch pocket & press card

Pocket outline plus a press card so pairs come out identical on the line.

10 cm scale check — measure after printing

How to use this template

- Cut one press card at the net line and press every pocket over it.
- Topstitch distance must match the spec sheet, usually 1.0 + 6.0 mm.
- Bartack both top corners; check pull strength on the first bundle.
- Check placement from the centre front and hem, not from the side seam.
